Sass & Compass

Spriting made easy!!

gulp.spritesmith build passing

Convert a set of images into a spritesheet and CSS variables via [gulp](#)

This is the official port of [grunt-spritesmith](#), the [grunt](#) equivalent of a wrapper around [spritesmith](#).

`images/*.png`

`gulp.spritesmith`

```
.icon-fork {  
  background-image: url(sprite.png);  
  background-position: 0px 0px;  
  width: 32px;  
  height: 32px;  
}  
...
```

Alternative output formats include [SASS](#), [Stylus](#), [LESS](#), and [JSON](#).
